

Our team

Vetter is a pharmaceutical company. We specialize in the processing of aseptically pre-filled injection systems.

Our headquarters in Ravensburg, southern Germany, within view of Lake Constance and the Alps, are home to approximately 1,800 employees. There we focus on finding innovative solutions for our customers around the world in the pharmaceutical and biotech industry.

Vetter has always placed high value on team work because we know that two heads are better than one.

We offer you interesting challenges, with positions of responsibility.
