

Differentiate your high-value lyophilized product

Set it apart with Vetter's service for sterile water for injection (sWFI)

Sharpen your product's competitive edge with our state-of-the-art technology, distinctive quality, and manufacturing expertise.

5-year stability data*

Accelerate time-to-market while reducing complexity and project costs.

Global regulatory support

Streamline approvals with submission-ready dossiers* for key accrediting bodies (FDA, EMA, PMDA).

Broad, versatile filling range

Meet specific reconstitution and dosing requirements and leverage a 5-year stability program covering extractable volumes from 0.50 ml to 3.0 ml.

Convenience, efficiency, and safety

Improve patient compliance and enhance end user experience.

Global service presence

Submission complete in major markets in North America, South America, Europe, and APAC, as well as South Africa and Israel.

*Validation and stability data comply with USP, Ph.Eur., PH.J, and ICH guidelines.
